## Education

**Pranveer Singh Institute of Technology, Kanpur, India**  
Bachelor of Technology in Computer Science and Engineering  
Percentage: 72.10%

Nov 2022 – July 2026

**The Chintels School, Ratanlal Nagar, Kanpur**  
Science High School Certificate (HSC)  
Percentage: 89%

Apr 2019 – Apr 2020

**The Jain International School, Kalyanpur, Kanpur**  
Science Higher Secondary Education (HSE)  
Percentage: 64%

Apr 2021 – Apr 2022

## Career Objective

Aspiring Frontend Developer skilled in **React.js, JavaScript, and Python** with a strong problem-solving background (**250+ LeetCode challenges**). Proficient in **SQL, Pandas, and PowerBI**, aiming to contribute technical expertise and build user-friendly web applications.

## Skills

**Programming Languages:** C, C++, Python

**Libraries/Frameworks:** HTML, JavaScript, Node.js, CSS, React.js, Sass, Pandas, NumPy, Matplotlib, seaborn

**Tools / Platforms:** VS Code, Git, Jupyter, MS Excel, PowerBI

**Databases:** SQL

## Projects / Open-Source

**ATHENA - AI Assistant** — [Link](#)

Explores AI virtual assistants to enhance user experience by automating tasks and delivering intelligent responses.

**Language Detection Model** — [Link](#)

Developed using NLP to identify 22 languages with high accuracy. Built with Flask and Jupyter Notebook, trained on 1,000 sentences per language.

**Leetcode-Matrix** — [Link](#)

Fetches and displays solved LeetCode questions categorized by difficulty (easy, medium, hard, total).

**Hotel Cancellation Dashboard** — [Link](#)

Created interactive dashboards using Excel with Pivot Tables, Pivot Charts, Slicers, and Conditional Formatting.

**Mynta Clone (E-commerce Frontend Project)** — [Link](#)

Developed a responsive Mynta clone website using HTML, CSS, and JavaScript.

## Certifications

- Python Development (Basic) - Hackerrank
- HTML, CSS, JavaScript, Database Management - Infosys Springboard

## Honors & Awards

- HackerRank: 5 star in Problem Solving, 4 star in C Programming
- LeetCode: Solved more than 250 problems
